IMMEDIATELY AVAILABLE

With 9 years experience, I'm constantly evolving and have recently consolidated my IT skills and enhanced my analytical expertise. I'm actively seeking a stimulating environment where I can use my strengths to make a significant contribution to the success of your company. My strong commitment to excellence makes me the ideal candidate for the challenges ahead. Let's talk about it!

QUALIFICATIONS

2024 - Certification Google Career
Google Data Analytics Professional

2023 - ENSAE Paris & OPENCLASSROOM
Statistics Data Analyst (Master I - RNCP 6)

2022 - European certification
ECDL Excel Advanced

2021 - VAE
CFC Retail manager

2011 - High School Diploma
Industrial Science & Technology

SKILLS

ABILITY TO ANALYSE
ABILITY TO SYNTHESISE

EXPERIENCES

DATA ANALYST

Tools used : Python, Excel, PowerBi, DAX, UML, SQL, Knime, Powerpoint

- DEVELOP AN AUTOMATED MODEL TO DETECT COUNTERFEIT BANKNOTES :

Exploratory data analysis, imputation of missing values by linear regression and construction of a detection model (models tested: Logistic Regression, KNN and Kmeans) then evaluation and optimisation of its performance

Technologies used : Python [Pandas, NumPy, Scikit-learn, Scipy, Matplotlib, Seaborn, Plotly]

- ANALYSIS FOR INTERNATIONAL EXPORT :

Collection of data from different sources to meet PESTEL analysis criteria to identify clusters of countries to target by reducing dimensions (PCA) and using algorithms (Kmeans & AHC)

Technologies used : Python [Pandas, NumPy, Scikit-learn, Scipy, Matplotlib, Seaborn, Plotly], Excel, PowerPoint

- RESPONDING TO A NEED TO MONITOR MOTORCYCLIST ACCIDENTS IN SWITZERLAND FOR THE OFROU :

After a blueprint, a mock-up and the review of current and passed papers, data was collected from various public sources, then the database was mapped on PowerBi in order to create dynamic reports at different granularities

Technologies used : PowerBi, PowerQuery, DAX, Excel, PowerPoint

- COMPLETE ANALYSIS FOR STRATEGIC DECISION-MAKING :

Using time series, statistical tests and R.F.M. segmentation, definition of proposed offers, price adjustments and target customers

Technologies used : Python [Pandas, NumPy, Statsmodels, Scipy, Matplotlib, Seaborn], Excel, PowerPoint, Shorthand

- IN-DEPTH STUDY ON GLOBAL UNDERNUTRITION FOR THE UNITED NATIONS (FAO) :

After the state of the art and the collection of public data, investigation of the current and passed papers of the problem and its causes, considering all related issues (political stability, war, GDP, road infrastructure, etc.)

Technologies used : Python [Pandas, NumPy, Matplotlib, Seaborn], Excel, PowerPoint

- STRATEGIC PROJECT TO CREATE A PREDICTIVE MODEL FOR PROPERTY PRICES :

Modification and modelling of the database by incorporating information extracted from public data, then querying to obtain initial indicators

Technologies used : SQL, SQLite, UML, Excel

SALES PERFORMANCE AND FLOW ANALYST

Tools used : Excel, VBA, Powerpoint, Sharepoint, Planner, PowerBi, Python, SAP

- ANALYSES AND SYNTHESSES OF KPIS WITH A TURNOVER OF AROUND 100M CHF/YEAR :

Synthesise the situation of KPIs & benchmarks in order to highlight useful insights for the management team, the Steering Committee or the Executive Committee

Technologies used : Excel, Python [NumPy, Matplotlib, Seaborn]

- PRESENTATION OF RESULTS AND SUGGESTED APPLICATIONS TO OPTIMISE KPI :

Weekly summary session on the status of the KPIs for the 12 managers, the deputy and the managing director

Technologies used : Powerpoint, PowerBi

- TRAINING AND MANAGEMENT OF IT TOOLS FOR A TEAM OF 180 PEOPLE :

Documenting operations and procedures, and training next to monitoring operational colleagues

Technologies used : Powerpoint

- IMPLEMENTATION OF PILOT PROJECTS, SHARING PLATFORMS AND PROCEDURES :

Making news available to everyone by creating Sharepoint pages and organising tasks using Planner

Technologies used : Sharepoint, Planner

- SIMPLIFYING THE DAY-TO-DAY WORK OF OPERATIONAL STAFF AND IMPROVING EFFICIENCY :

Automate recurring tasks by transforming 3 hours/week of research into ONE click using VBA

Technologies used : Excel, VBA

- MANAGEMENT OF GOODS MOVEMENTS, CONTRACTS AND B2B/B2C ORDERS :

Organise and control the various indicators, then communicate solutions to the right persons

Technologies used : SAP, Excel, Planner

SALESPERSON | SECOND SHOP MANAGER

Tools used : Excel, Powerpoint, SAP

- SALES ANALYSIS :

Search for increases in sales performance according to position, season and various KPIs

Technologies used : Excel, SAP

- PRO-ACTIVE SEARCH FOR IMPROVEMENTS :

By monitoring trend / the competition and looking for new partners

Sources used : Google Trend, social media, customers

- B2C CONTRACT MANAGEMENT :

Creation of contracts for customers either internally or directly with suppliers

Technologies used : Excel, SAP

- CONFLICT MANAGEMENT:

Adapting my language and finding a solution for the customer without affecting the organisation

- TEAM MANAGEMENT :

Managing a team of 11 people and relaying with the n+1-2 hierarchy and the merchandiser

PERSONALITY

I have an optimistic temperament, I'm also dynamic and constantly cheerful. My self-control and ability to adapt are admired by those close to me. These qualities stem from my incessant curiosity, which leads me to see problems as challenges to be met, convinced that there is always a solution. It encourages me to think 'out of the box' and to dedicate free time to platforms such as HackerRank.

Having recently consolidated my statistical and algorithmic approach, I'm looking forward to applying and sharing my knowledge on high-impact, high-stakes assignments where my interest in programming and the search for insights can be exploited to the maximum.
